NEONATAL RESUSCITATION TABLE

FABIE 4300

Infant radiant warmer – neonatal resuscitation table

MANUFACTURER

A resuscitation table and an open incubator in one unit, for the delivery room and the neonatal unit alike.

OVERVIEW

Médipréma's FABIE works both as a resuscitation table and as an open incubator. A quartz radiant heater, which pivots through 90°, delivers gentle, even heat across the whole bed without getting in the way of the care team.

Regulation is servo-controlled. In air mode the temperature is displayed in °C and held against the room conditions; in skin mode it follows the probe placed on the infant; a skin-to-skin mode supports contact sessions with the parents. Warm-up is fast, in an emergency or when the environment is disturbed.

The bed is enclosed by removable side panels, some of them fold-down, which come off for disinfection. The table takes resuscitation equipment: Neopuff resuscitator, air/O2 gas set, blender and vacuum set.

KEY FEATURES

- Radiant heating by quartz element pivoting through 90°
- 3 regulation modes: air, skin, skin-to-skin
- Servo-controlled skin temperature regulation, with alarms
- Fast warm-up in emergencies
- Built-in Apgar timer
- Integrated oxygen analyser (O2 sensor ref. 3603)
- Wide memory-foam mattress: 730 × 585 × 50 mm
- Removable panels and smooth surfaces for easy cleaning and disinfection
- Takes a Neopuff, air/O2 gas set, blender and vacuum set

TECHNICAL SPECIFICATIONS

Specification	Value
Manufacturer	Médipréma
Origin	France
Type	Infant radiant warmer / neonatal resuscitation table
Manufacturer reference	4300 – fixed-height version
Heater	Quartz radiant element, pivoting 90°
Regulation modes	Air, skin, skin-to-skin
Timer	Built-in Apgar timer
Oxygen	Integrated O2 analyser (sensor ref. 3603)
Mattress	Memory foam, 730 × 585 × 50 mm
SpO2 / heart-rate monitoring	Not available on this model
Power supply	220-240 V ~ 50/60 Hz – 900 VA (rating plate)

Specification	Value
Overall dimensions (L × W × H)	1,101 × 600 × 1,800 to 2,000 mm (height-adjustable version)
Indicative export packing	138 × 76 × 148 cm – 140 kg gross (with height-adjustment option)
Medical device class	IIb – CE 0459
IBSGROUPE warranty	1 year (1- or 2-year extension available)

SUPPLIED CONFIGURATION

- 1 × FABIE 4300 radiant table, fixed height
- 1 × memory-foam mattress 730 × 585 × 50 mm
- 1 × box of 25 single-patient skin probes

OPTIONS AND ACCESSORIES

Mfr. ref.	Description
4301	Electric height adjustment option – FABIE
4339	2 drawer units + rear shelf – FABIE
4311	Air/O2 gas set, NF standard (outlets, flowmeter, Y kit, wall hoses, humidifier)
4595033968	Air/O2 gas set, BS standard, with Maxblend 2 blender (outlets, flowmeter, blender, hoses, rail mount)
4322	Vacuum set, NF standard (outlet, vacuum gauge, wall hose, trap bottle, silicone tube, 1 liner)
4230	Neopuff – Infant T-piece resuscitator, 210 cm gas supply line, 10 single-use circuits and 10 masks
4224	Neopuff central mounting bracket (not compatible with 4304)

ASSOCIATED CONSUMABLES

Mfr. ref.	Description
3603	O2 sensor for integrated oxygen analyser – reusable
3617	Reusable skin temperature probe
3623	Single-patient skin temperature probe
3604	Peripheral skin temperature probe – reusable
3159	Repositionable hydrogel probe cover
4041	1 L vacuum liner for suction system – single use

APPLICATIONS

The FABIE 4300 is particularly suited to:

- Delivery rooms and obstetric theatres
- Maternity units
- Neonatal units (intensive and high-dependency care)

Please note — Electric height adjustment (ref. 4301) available as an option. SpO2 / heart-rate monitoring is not offered on the FABIE.

Manufacturing and distribution — Designed and manufactured in France by Médipréma (CE 0459, notified body GMED), distributed by IBSGROUPE Ltd. Non-contractual document. Specifications may be changed by the manufacturer without notice. In case of discrepancy between text and image, the text prevails. IBSGROUPE ref. : IBSLTD-MDP-4300.
