

## ALAVENTI 03 Physiotherapy table

### Description

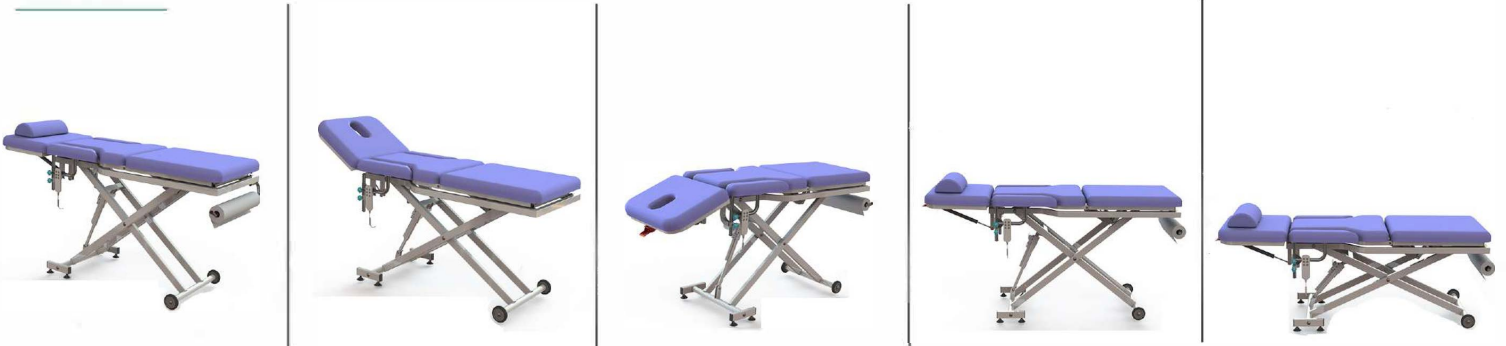

Electrical bobath table ALAVENTI 03.

ALAVENTI 03 is a special product that functionally meets the needs of patients and physiotherapists at a high level. ALAVENTI 03 can be used safely in hospitals, physical therapy and rehabilitation centers, many different sports fields, workplaces, elderly care homes and other health institutions. ALAVENTI 03 provides a high level of patient comfort during long and tiring sessions with its 70 mm high 32 DNS HR foam top upholstery. (HR sponge: it is more comfortable than conventional sponges since the pressing and shrinkage resistance values are close to each other)

ALAVENTI 03 Electric physiotherapy table makes the height movement with a linear actuator that provide 6000 N/m3 power working through electric hand control. ALAVENTI 03 Electric physiotherapy table makes the back movement with a linear actuator that provide 6000 N/m3 power working with the help of electric hand control. ALAVENTI 03 makes 45 middle part movements with electric actuator. It functionally enables ventral-dorsal exercises and interventions. The actuator, which provides 6000 n/m3 of power, is comfortably controlled with a hand control. Special horizontal and vertical movable arm supports provide convenience in shoulder, arm and trapeze exercise movements. Its strong steel construction meets security needs at the highest level. It has worked successfully in the tests carried out using a weight of 295 Kg on the whole surface. ALAVENTI 03 subframe made of strong steel frame provides high stability and safety. Also its mobile structure facilitates an ease use. Our table ALAVENTI 02H functional and practical product.

- Strong and durable structure made of steel profile
- Semi-mobile mobility four antistatic wheels, two of them with brakes
- Height movement 450-850 mm with a linear actuator providing 6000 n/m3 power
- Backrest movement 0-70° with a linear actuator providing 6000 N/m3 power
- Middle section movement with one linear actuator providing 6000 N/m3 power 0-40°
- 70mm high 32 DNS HR foam top lying surface
- Lying surface is washable, wipeable, anti-bacterial, liquid proof, breathable, artificial leather. Weight:250/300 gr/m2
- Accessory options can be integrated into ALAVENTI 03.
- Clean and smooth appearance and easy to clean surface which is electrostatic powder painted

### Position of The Table

### Technical Specifications

External dimencions	195-60 cm
Internal dimencions (WXL)	195-60 cm
Height	45 cm - 85 cm
Weight	90 kg
Working Load	210 kg

### Optional Accessory

- Towel holder
- Headrest pillow
- Hole on headrest
- Foot control

### Color Options

### Sertifika ve Belgeler / Quality
