

**HB245 Home Care 2+1 Adjustment, Electrically Controlled Beds**

Back rest and knee rest adjustment controlled by electrical hand remote, foot rest adjusted by manual ratchet mechanism, fixed height, siderail-free beds. It is designed to respond to short and long term basic care needs and to be used for patients who needs caregiver supervision or patients with self-control ability.

**Suggested area of use :** Home Care, Hospitals, Nursing Home

Supports Semi-fowler and Fowler positions. Back rest adjusted up to 0°-70° and knee rest 0°-35°. Semi-fowler position, 30° of back rest adjustment, can be used for those with heart, respiratory and neurological disorders or using a nasogastric catheter. It also meets the requirements of the Fowler position with 45 degrees of basic back rest angle and knee rest bending position support for providing comfort, relaxing breathing, post-thoracic surgery or patients with cardiovascular problems. As the back rest and knee rest can be adjusted separately, It is ideal for activities such as long time sitting, reading book, using computer and eating food. We provide wide options for platform covering and castors with HB245 models.

**Side Rails:** Aluminium side rails equipped for caring patients who have risk of falling out of beds. It is placed both side of the beds and can fold down-up. Folding feature provides spacious clearance under beds. Trigger mechanism performs as button to fold down the rails. Open view type of side rails developed for those who have demantia and panic attack issues so that they do not feel imprisoned and unsafe. Patients can be still in visual communication, while the side rails adjusted to even the highest position.

**Head and Foot Panels:** They are designed as detachable for emergency intervenes as well as making up the bed. Wood/Metal type panels developed for being economic and practical. It easily fit on sockets placed at four corner of the bed. Metal part is stainless steel, and wood part is MDF covered wood. Height of the panels is 33,5 cm from mattress platform. Metal parts of the bed made of smooth finishing for injury risks.

**Mattress Platform:** 4 sections, 3 adjustable platform consist adjustments of backrest 70°, kneerest 35° by hand crank and footrest 45° by ratchet mechanism. The platform has 85cm width and 190cm length for comfortable recovery.

**Painting and Coating :** Construction and frame surfaces are coated with epoxy powder paint at high degree ovens. Durability, resistance to scratching and smooth surface at high quality is under guarantee. Therefore, It keeps the look like the first day. Eco-friendly smooth surfaces help you take care of your beds at ease.

**Construction (Body) :** Made of steel construction. With gas metal arch welding technique, It provides strong and durable body.

**Additional Option:** Legs and boards of our beds are demountable, therefore It ensures maximum use of space during storage and transportation. There is space under beds needed for placing lifts and overbed tables.

**Adjustment Control :** Adjustments made via hand remote control. Beds equiped with low voltage motors at 24V DC. The motors generate 2x 4500N power and are in IPX4 protection class. Hand remotes are with coil type cables and easy to use without any guide as to be user friendly.

**Mobilisation:** If you need to move a patient with the bed, then It is a must to equip beds with castors. Especially for hospitals the mobility of beds is the basic need, yet for home care use we provide options for the beds to be without castors. Also more cost-effective option, beds without castors can be a good choice.
