45cm to 59cm

**MC6169**  
54cm to 74cm

## Dual Curve Medical Stools

The dual curve medical stools feature an ergonomically designed seat pad, the curvature and static tilt of the seat encourages pelvic tilt, prevents slouching and promotes positive posture. An ideal suturing stool for clinical environments such as Delivery Suites, Theatres and A&E Departments, where the clinician is required to work in close proximity to the patient during these procedures. The foot height control option provides hands free height adjustment during these procedures.
