

COMEN NC3 NIBP + SpO2 Diagnostic Station on Stand

Infant / paediatric configuration with infant, child and small-adult cuffs plus paediatric SpO2 sensor

Manufacturer	COMEN Medical
Model	NC3
Measured parameters	NIBP, SpO2, pulse rate
Display	6" backlit LCD
Battery runtime	Up to 12 hours
Memory	50 data groups
Base reference	BCMONI01
IBSGROUPE Ref.	IBS-P2608-135

The **COMEN NC3** diagnostic station is a compact vital-signs monitor designed for outpatient care, hospitals, clinics and bedside spot checking. This IBSGROUPE configuration combines **non-invasive blood pressure (NIBP)** and **SpO2** monitoring, together with a **mobile stand** and accessories suitable for infant and paediatric patients.

Key benefits

- Backlit **6-inch LCD display**
- Measured parameters: **NIBP, SpO2 and pulse rate**
- Fast NIBP measurement: approx. **20 to 30 seconds**
- Quick start-up: approx. **1 to 2 seconds**
- Manual spot-check or programmed automatic measurement
- Integrated rechargeable lithium battery - up to **12 hours** runtime
- Memory for up to **50 patient data groups**
- Monitor weight: approx. **1.25 kg**
- Suitable for **adult, paediatric and neonatal** use depending on accessories
- Medical device **Class IIa - CE 1639**

Main technical data

Manufacturer	COMEN Medical
Model	NC3
Measured parameters	NIBP, SpO2, pulse rate
Display	6" backlit LCD
Battery runtime	Up to 12 hours

Memory	50 data groups
Monitor weight	Approx. 1.25 kg
Medical device	Class IIa
Marking	CE 1639
Warranty	36 months
Base reference	BCMONI01
IBSGROUPE Ref.	IBS-P2608-135

Supplied configuration

- **1 COMEN NC3 NIBP + SpO2 station** (distributor ref.: BCMONI01)
- **1 mobile stand with castors** (ref.: BDDSOCL02)
- **1 infant cuff** 8–13 cm (ref.: DSU231130U)
- **1 child cuff** 12–19 cm (ref.: DSU231131U)
- **1 small adult cuff** 17–25 cm (ref.: DSU231132U)
- **1 Y-type paediatric SpO2 sensor** (ref.: BCCAPT06)
- Integrated rechargeable lithium battery and power cable

Applications

Paediatric and infant consultations, hospitals, clinics, emergency departments, healthcare centres, outpatient care, nursing homes and bedside spot-check monitoring.
