Children's square table 80 × 80 cm

Solid beech frame, height chosen by age group, delivered assembled

DESCRIPTION

A square children's table, 80 × 80 cm, with a solid beech frame on four legs fitted with anti-noise glides. It comes in several top heights, chosen according to the age group being accommodated: that setting is what determines whether the child can rest their feet on the floor and work in a correct posture.

The top is a 20 mm laminated particle board with beech ABS edging; the apron under the top is in natural beech. The table is delivered assembled.
