

TECHNICAL DATA SHEET

Catering equipment

STAINLESS SINK UNIT

Deep double sink 1,410 × 600 mm

Two 100-litre bowls, 430 stainless steel, integrated splashback

DESCRIPTION

A sink unit with two deep bowls of 400 mm, giving 100 litres each: enough to fully immerse gastronorm containers and large stockpots, which a standard sink cannot do. Construction is in 430 stainless steel, with 410 stainless steel legs.

The splashback stops water running behind the unit and stagnating against the wall. The unit is supplied in kit form with trap and wall fixings, for straightforward assembly on site.

TECHNICAL SPECIFICATIONS

Specification	Value
Capacity	2 × 100 litres
Bowls (H × W × D)	400 × 610 × 450 mm
Bowl depth	400 mm
Unit with splashback (H × W × D)	900 × 1,410 × 600 mm
