

INSTITUTIONAL SEATING

Upholstered visitor chair

High-density 60 kg/m³ foam, multi-ply beech, stackable

DESCRIPTION

An upholstered visitor chair for offices and waiting rooms. Seat and back are built on a multi-ply beech structure and padded with 5 cm of high-density foam at 60 kg/m³: that density is what separates a seat that lasts ten years from one that sags within a season.

It stacks and supports 120 kg.

TECHNICAL SPECIFICATIONS
