

MEASURING INSTRUMENT

Vaccine carrier thermometer

Mini penetration-probe thermometer, ultra-fast response

DESCRIPTION

The Super-Fast mini thermometer is a compact, waterproof pocket thermometer with a fast-response probe, Max/Min functions and data hold. It is ideal for quick, straightforward temperature readings wherever they are needed.

It switches on automatically as soon as the protective cap is removed, giving an immediate reading with no handling. Each unit is supplied with its CR1632 lithium button cell and a protective cap with an integrated pocket clip.

ULTRA-FAST RESPONSE

The Super-Fast features a $\varnothing 2.5 \times 73$ mm stainless steel penetration probe with a reduced tip, designed for rapid response. Compact and accurate, it is well suited to vaccine carrier checks, kitchen and catering use, and daily HACCP verification.

TECHNICAL SPECIFICATIONS

Specification	Value
Measuring range	-39.9 to +149.9 °C
Resolution	0.1 °C / °F
Probe	Stainless steel penetration probe, $\varnothing 2.5 \times 73$ mm, reduced tip
Functions	Max / Min, data hold
Switch-on	Automatic on removal of the cap
Ingress protection	IP65
Power supply	CR1632 lithium button cell (supplied)
Accessory	Protective cap with integrated pocket clip

APPLICATIONS

- Vaccine carrier monitoring
- Daily HACCP checks
- Goods-in inspection
- Cold chain
- Kitchens and catering
- On-site spot checks
