

- 25 L cavity capacity suitable for professional food preparation.
- 1000 W microwave output for fast and efficient heating.
- Durable stainless steel interior and exterior construction.
- User-friendly touch control panel with LED display.
- Multiple power levels for various cooking and reheating applications.
- Programmable timer for precise cooking control.
- Uniform microwave distribution for consistent heating performance.
- Easy-to-clean smooth stainless steel interior.
- Compact countertop design with space-saving dimensions.

TECHNICAL DETAILS

Capacity:	25 L
Output Power:	1000 W
Power Supply:	220–240 V / 50 Hz
Control Panel:	Touch Control with LED Display
Power Levels:	Multiple
Timer:	Adjustable
Dimensions (W × D × H):	511 × 421 × 285 mm
Net Weight	25 kg
