

TECHNICAL DATA SHEET

Oxygen Therapy

MOBILE SET

REFERENCE

Mobile oxygen therapy set

34505 + 34177 + 34168 + 34169

GIMA S.p.A.

GIMA 5 L configuration: O2 cylinder with integrated pressure reducer + trolley + adult and paediatric masks

GIMA oxygen cylinder range - ref. 34505 included

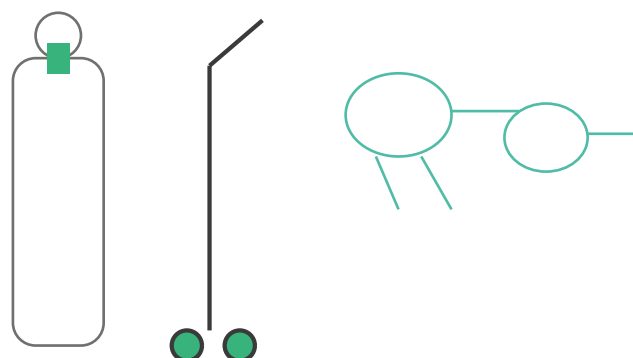

Illustration of the complete configuration

SELECTED CONFIGURATION

Item	Ref.	Specification
5 L O2 cylinder with integrated pressure reducer	34505	200 bar; 0-15 L/min; UNI connection; Ø 140 × 550 mm; 9 kg
Cylinder trolley	34177	For 5 and 7 L cylinders
High-concentration adult mask	34168	With tubing
High-concentration paediatric mask	34169	With tubing

INTENDED USE

Mobile set intended for emergency oxygen therapy and intra- or extra-hospital transport. The cylinder is supplied empty, with an integrated two-stage pressure reducer and high-pressure gauge. The trolley facilitates the mobility of the 5 L cylinder.

POINTS TO NOTE

- Reference 34505 uses a UNI connection - not NF.
- Masks 34168 and 34169 are distinct adult and paediatric masks.
- Oxygen filling is not included: the cylinder is supplied empty.

Distribution & services - IBSGROUPE LTD provides distribution, logistics and after-sales service. Manufacturing is performed by the manufacturer indicated on this data sheet. Non-contractual document: specifications and accessories may change according to the manufacturer and the ordered configuration.
